Company Overview

Company Profile

Item	Description
Date established	June 19, 1984
Address of Company	6F, No. 202, Xingfu Road, Taoyuan District, Taoyuan City, Taiwan
Plant	YTIP Plants 1, 2, and 3, and Taoyuan Plant, and Vietnam Plant
Paid-in capital size	NTD 713 million
Chairperson	Chin-Lan Li
President	Jen-Shan Wu
Main Product	R&D, design, manufacture and service of various ball bearing slides
Group-wide number of employees	820 (as of June 30, 2026)
CPA	KPMG Taiwan

History

Corporate ESG

Discharge of Waste Water

- 1) Even stricter criteria established
- 2) Reduced discharge

Waste Water Accumulator

- 1) Lining twice as thick
- 2) Dual-layer lining design

Green Energy/Green Electricity

- 1) Rooftop solar panels
- 2) Ceiling fans added to plants

Exploring Different Products

- 1) Emphasis placed on product life span
- 2) Reduced consumption and elimination of products

6S Management

- 1) Creation of a clean and safe workplace
- 2) Careful maintenance of equipment to extend its lifespan

Give Back to Society for Public Interest

- 1) Collaboration in providing comfortable environment for the disadvantaged
- 2) Industry-academe collaboration with schools
- 3) Adoption and maintenance of green spaces to offer jobs for the disadvantaged

Human Rights of Employees

- 1) Comfortable accommodations
- 2) Meals prepared with quality food ingredients

Physical and Mental Health of Staff

- 1) Organizing various types of workshops
- 2) Taking care of the body and mind of employees besides their tasks at work

Environmental Protection (E, Environment)

- ✓ Certified for ISO14001: 2015 Environmental Management System.
- ✓ Joined Taiwan Climate Partnership in July 2022 to connect with the Climate Group while setting greenhouse gas inventory and carbon reduction commitment goals for the supply chain.
- ✓ Plans to be ISO 14064 certified for its greenhouse gas emissions system.
- ✓ Process wastewater recycling rate reaches 70% at the Surface Treatment Department of YTIP Plant 2.
- ✓ Solar power generation system set up at YTIP Plants 1 and 2 to reduce carbon emissions by 3,006,938kg.
- ✓ Hazardous sludge reduction processing equipment made available by the Surface Treatment Section of YTIP Plant 2 to bring down the amount of sludge by up to 67%.
- ✓ Industry-academe collaboration in “Research on Applying Energy-saving Project to Ice Water Hosts and Industrial Fans” to facilitate energy-saving solution research and to minimize energy consumption.
- ✓ Regular Disclosure of Sustainability Reports
- ✓ **Exclusive current** collaboration with China Steel Corporation in introducing RC12 galvanized steel-recycled materials in slides.

Corporate Social Responsibility (S, Society)

- ✓ Approved Microsoft SEA certified and RBA (Responsible Business Alliance) certification obtained in 2023.
- ✓ Approved for ISO45001: 2018 Occupational Health and Safety Management System.
- ✓ Sponsored the volleyball team of Yingge Junior High School
- ✓ Long-term partner with the National Kaohsiung University of Science and Technology and Chung Yuan Christian University in industry-academe collaboration projects that help periodically nurture R&D talents needed at respective plants.
- ✓ Supplier conferences held each year to communicate CSR requirements.
- ✓ Free Mediterranean quality meals to ensure a healthy diet of employees.
- ✓ Full-time occupational safety and health staff and doctors specializing in occupational medicine available on site periodically to provide service.
- ✓ Periodic labor-management meetings and Employee Welfare Committee-held events.
- ✓ Diversified channels available for employees to provide feedback.
- ✓ Stock reward system in place to realize sharing of operating fruits by the employer with employees.

Corporate Governance (G, Governance)

Shareholders' equity	Functionality of the Board of Directors	Audit and Remuneration Committees	Internal audit and internal control system
➤ Shareholders' meetings are held in accordance with the "Rules of Procedure for Shareholders' Meetings." ➤ Spokesperson system in place and "Investors" section available on official website ➤ Exclusive person available to take care of shareholders' suggestions, concerns and disputes, among others	➤ Board meetings are held in accordance with the "Board of Directors Meeting Regulations" ➤ The Board currently consists of nine directors, including four independent directors. ➤ Independent directors exercise their duties in accordance with the "Scope of Responsibility and Rules to Be Followed by Independent Directors" ➤ Recuses in cases of proposals involving conflicts of interest ➤ Establishment of a Corporate Governance Officer and dedicated compliance personnel.	➤ Remuneration Committee and Audit Committee set up as soon as the Company was listed on the Emerging Stock Board in 2016 ➤ Both members are independent directors ➤ Periodically communicates with the CPA ➤ Reviews major asset transactions and stakeholder transactions	➤ Internal control and internal audit operations are conducted in accordance with relevant regulations. ➤ Internal audit reports are submitted to the Audit Committee by the end of the following month after completion. ➤ The Head of Internal Audit attends the Audit Committee and Board meetings to present audit reports.

6

Future Prospect

Innovative Application

- Design-In Collaborative development of customized products
- Slide-centered to set foot on peripheral applied fields
- Devoted to innovations on multiple slide specifications

Smart Manufacture

- WMS Automated Warehouse Management System
- MES Manufacturing Execution System
- APS Advanced Planning and Scheduling System
- RGV Automated Transport Equipment (Rail-guided Vehicle)

High-value Product

- Upgrade of customer products to create differentiation
- Enhanced ratio of functional high value-added products in revenue

The background of the slide is a light gray color, overlaid with a repeating pattern of technical line drawings of ball bearing slides. These drawings are shown in various orientations (horizontal, vertical, and at angles) and represent different views (top, side, cross-section) of the mechanical components. The drawings are rendered in a thin, dark gray line style.
