Installation Instructions

QUICK INSTALLATION GUIDE OF NJ-26104

Two Way Travel Slides, 50 pound (22kgs) loading.

READ THE QUICK INSTALLATION GUIDE FIRST BEFORE INSTALLATION

Please use screw kit as included. Each side of slides requires at least 6 screws (3 on cabinet side, 3 for drawer).

Or you may use screws as the recommended dimensions (10mmx2.4mm)

Technical Specification of drawer and cabinets

The bottom of drawer slides must be 5mm above the bottom of drawer to ensure correct function. The center of drawer slides must be 24mm above the bottom of cabinet.

Install the drawer slides to the cabinet

To ensure the same length of extension from both sides, center the slide to the depth of the cabinet.

Install the slides to the cabinet with the provided screw kit. Each side requires at least 3 screws.

Please make sure the drawer slide on each side is parallel to each other.

Install the drawer slides to the drawer

Install the slides to the drawer with the provided screw kit.

Each side requires at least 3 screws. Please move the drawer back and forth to see if the drawer runs freely.

If not so, please check if drawer or cabinet is square, the slides are installed in a parallel manner or screws are tightened properly.
